

REAL WORK BEGINS
AT WASHINGTONCONGRESS SETTLES DOWN TO
BUSINESS.

President's Message Read in Senate and House—Rufus W. Peckham of New York Nominated for Supreme Court—Work in the Senate and House.

Washington, Dec. 4.—The excitement and confusion attending the opening session of the house had almost entirely vanished when that body met yesterday. The crowds in the galleries had thinned out, the flowers had disappeared, members lolled and chatted easily in their revolving chairs, and the house assumed something like a normal appearance. Rev. H. N. Coudon, the new chaplain, a blind Universalist preacher from Port Huron, Mich., delivered the invocation, after Speaker Reed had rapped the members to order.

Mr. Payne (rep.) of New York, chairman of the committee appointed to wait upon the President, reported that Mr. Cleveland had sent his respectful salutations to congress and would communicate in writing. Immediately thereafter Mr. Pruden, the President's executive clerk, appeared with the message, which the speaker forthwith laid before the house. As the clerk commenced its reading the house became quiet and the members listened, some intently, but all respectfully, to the words of the chief executive.

Not during the entire reading was there a single manifestation of approval or disapproval, but at the conclusion of the reading, which occupied an hour and a half, there was a slight scattering of applause. Five thousand copies of the message were ordered printed, after which, at 1:50 p. m., on motion of Mr. Payne (rep., N. Y.) the house adjourned until Friday.

Among the various bills introduced were: By Mr. Powers of Vermont—A bill to establish a uniform system of bankruptcy.

By Mr. McCall of Massachusetts—To amend the immigration laws.

By Mr. Chickering of New York—To ascertain the feasibility and cost of constructing a ship canal from the great lakes to the Hudson river.

By Mr. McRae of Arkansas—To strike out the provision of the constitution against levying a capitation or direct tax (a result of the income-tax decision).

By Mr. Hermann of Oregon—To abrogate the Clayton-Bulwer treaty.

By Mr. McRae of Arkansas—To define trusts and to authorize the free importation of articles covered by them.

By Mr. Johnson of California—To make it unlawful after Aug. 1, 1896, for any foreign-born laborer to enter the United States; also a bill to provide that no alien shall be admitted to citizenship who has not for the continued term of five years preceding his admission resided within the United States and who cannot speak, read and write the English language.

BUSY DAY IN THE SENATE

Resolutions Introduced on the Monroe Doctrine and in Regard to Cuba.

Washington, Dec. 4.—The senate plunged into real business yesterday. The message was given the closest attention from all quarters of the chamber. At its conclusion Mr. Lodge (Mass.) offered a resolution, vigorous in terms, reaffirming the principles of the Monroe doctrine, and presenting them in such form as to permit their enactment as a permanent law rather than an expression of the policy advocated by President Monroe. In the same line was a resolution by Mr. Cullom (Ill.) and another by Mr. Allen (Neb.).

The Cuban situation received attention from both the Florida senators.

At the brief executive session the nomination of Mr. Olney as secretary of state and Mr. Harmon as attorney general were confirmed, and that of Rufus H. Peckham to the supreme bench referred to the judicial committee.

When the reading of the message was completed, on motion of Mr. Gorman it was laid on the table and ordered printed.

Mr. Cullom (rep., Ill.) presented a communication from Evanston, Ill., asking government action concerning the deplorable condition of affairs in Turkey.

Mr. Gallinger (rep., N. H.) offered a similar communication from citizens of New Hampshire.

A resolution of the Idaho legislature urging the election of United States senators by popular vote was presented by Mr. Dubois (rep., Idaho.)

Mr. Stewart (rep., Nev.) introduced his bill for the "free and unlimited coinage of silver."

Mr. Call (dem., Fla.) gave notice that he would call up his Cuban resolution to-day. It is in part as follows: "Resolved, That the congress of the United States protest and remonstrate against the barbarous manner in which the war in Cuba has been conducted, and the president is hereby authorized to take such steps as may be expedient in his judgment to secure an observance of the laws of war as recognized by civilized nations."

Mr. Cullom (rep., Ill.) introduced a resolution on the Monroe doctrine similar to that presented by Mr. Lodge. He gave notice that he would call up the resolution as soon as permissible for the purpose of addressing the senate

thereon. Among the large number of bills offered by Mr. Peffer (pop., Kan.) were those limiting the president's term to six years without re-election; repealing all laws permitting the issuance of bonds; the limitation of the power of injunction.

Mr. Allen (pop., Neb.) offered a concurrent resolution for the immediate recognition of the Cuban insurgents, the annexation of all islands proximate to the United States, the upholding of the Monroe doctrine and a firmer foreign policy respecting the protection of American citizens abroad. Mr. Allen wished to make a ten-minute speech on the passage of the resolution, but it went over with the others without debate. Mr. Squire (rep., Wash.) introduced a silver-coinage bill, which, he stated, sought to be a fair solution of the present coinage problem.

Mr. Morgan (dem., Ala.) gave notice that on next Monday he would address the senate on the British claims for Bering sea seizures. In this connection he offered a resolution for an investigation and report on the subject by the senate committee on foreign relations. At 2:50 p. m., on motion of Mr. Faulkner (dem., W. Va.) the senate went into executive session, and at 3 o'clock adjourned until to-day.

PECKHAM IS NOMINATED.

New York Man to Be Associate Justice of Supreme Court.

Washington, Dec. 4.—The President has nominated Rufus W. Peckham, of New York, to be associate justice of the United States supreme court, to succeed the late Howell E. Jackson, of Tennessee. Judge Peckham is a resident of Albany and judge of the court of appeals of New York. It is believed he will be satisfactory to Senator Hill, whose opposition was successful in preventing the confirmation of Messrs. Hornblower and Wheeler Peckham, the two New Yorkers whose names were sent in by President Cleveland for the supreme court justiceship, now held by Justice White of Louisiana. The President also nominated Richard Olney to be secretary of state and Judson Harmon attorney general.

Venezuela Boundary Dispute.

Washington, Dec. 4.—The first movement in congress upon the Venezuelan boundary dispute came yesterday in the form of a resolution introduced in the house by Representative Livingston of Georgia. The resolution recites that by a resolution of the last congress it was recommended that the boundary dispute be submitted to arbitration, that the action was brought to the attention of her Britannic majesty's government by the president, courteously, and with kindly intent, and declares that her majesty's government has "failed to give the prompt consideration to the important request contained in that joint resolution or to answer the same in any manner, such as was due and becoming to the dignity of the United States as a great nation and to the friendly relations existing between the two governments."

In conclusion, it provides for a joint committee of two senators and three members to investigate the facts and recommend proper action to congress, to vindicate and preserve the dignity and rights of the United States in the premises.

Will Push the Waller Case.

Washington, Dec. 4.—The Kansas delegation in congress is determined to leave nothing undone to secure the release of ex-Consul John L. Waller from his imprisonment in France. After the president's message had been read yesterday, the entire delegation of senators and members, including republicans and populists, held a meeting to decide upon their course of action. It was resolved to push a resolution in both houses calling upon the president for all the papers and correspondence in the case. Representative Curtis of Kansas has received many petitions calling for strong action in the Waller case, which he will present to the house.

To Succeed Col. Poe.

Washington, Dec. 4.—On the recommendation of Gen. Craighill, chief of engineers, the secretary of war has directed Major J. C. Post, corps of engineers, to take charge of all the public works in the vicinity of Detroit, formerly in charge of Col. O. E. Poe, deceased.

INVESTMENT CONCERN FAILS.

Pennsylvania Investment Company of Kansas City in Trouble.

Kansas City, Mo., Dec. 4.—Judge Phillips of the federal court yesterday appointed D. E. Stoner receiver of the Pennsylvania Investment company in response to a petition of shareholders. Rouben Barto of Berks county, Pa., a stockholder, filed a petition setting forth that the liabilities were \$365,000 and the assets amounted to about the same. The company loans and invests money for Eastern capitalists through the trusteeship of the Pennsylvania Trust company of Reading, Pa. Its bond indebtedness is placed at \$300,000 and besides there are floating claims against it amounting to \$65,000. It holds equities in Western real estate to the extent of \$210,000. The remainder of the assets are in mortgage bonds and first mortgage notes.

The Mississippi Frozen Over.

Burlington, Ia., Dec. 4.—The Mississippi river is frozen over here and farmers are hauling their produce across on the ice.

FIERCE FIRES RAGE
IN MANY PLACESTHE WORK OF THE DEVOURING
ELEMENT YESTERDAY.

Immense Conflagration at Indianapolis—Four Firemen Fatally Injured—Loss Nearly Half a Million Dollars—Blazes at New York and Other Cities.

Indianapolis, Ind., Dec. 4.—One of the most destructive fires that ever visited the wholesale district of this city occurred early yesterday morning, when four firemen were seriously injured, one probably fatally, and five prominent business firms were burned out, entailing a loss of \$500,000, which is only partially covered by insurance. The injured:

Frank Arnett, badly injured by falling wall.

Patrick Murphy, struck by falling cornice, badly injured.

Frank Sloan, leg and jaw broken and body badly bruised; may die.

Warren Sloan, badly injured by falling wall.

An incident of the fire that nearly resulted in death to three firemen and which will probably cause the death of a fourth, occurred while they were pouring a stream on the walls of Ward's drug store. Frank L. Sloan, Warren Sloan and Frank Arnett were in the alley heading a nozzle when an exclamation from the bystanders attracted their attention. Looking up they saw the wall toppling and a moment later it came down with a crash. Warren Sloan and Arnett were struck by the flying bricks and both men were badly hurt. Frank Sloan did not see the toppling wall and was buried to his hips in the debris and when rescued was found to be badly crushed, one leg and his jaw being broken and his body covered with bruises. He was taken to the hospital, where it was found that he was suffering from internal injuries. He may die. Patrick Murphy, another fireman, was struck by a falling cornice and was badly hurt, suffering a broken shoulder and other injuries.

The fire began in the wholesale grocery store of Schnull & Co., Nos. 58 to 68 South Meridian street. At 8:30 o'clock the third floor of the building fell in, and the heavy stock piled on it was carried to the first floor. H. N. Goe, a merchant from an adjoining town, and two salesmen of the Schnull company, were caught in an elevator between two floors. It was a moment of extreme peril, and, frantic with their efforts to escape, were compelled to stand in the elevator and watch the flames as they advanced upon them.

The firemen rushed in, but could see no one, although they heard the cries of the imprisoned men. Looking up the shaft, they soon discovered the real situation, and axes were brought and several men set to work to cut the imprisoned men out. Just as they reached Goe, the elevator dropped down to the floor below and the three men jumped out and fled from the building, none of them having been injured.

The firms burned out are: Schnull & Co., wholesale grocers; Ward Brothers, wholesale druggists; the Hildebrand Hardware company; Eckhouse Brothers and Woodford and Pohman, wholesale liquor dealers; Fairbanks Scale company, the Indiana Coffee company.

Damage Will Reach \$400,000.

New York, Dec. 4.—The damage by fire at 72 Warren street yesterday is estimated at \$50,000, of which one-half is on the building, \$20,000 on the Argo spice mills, \$3,000 on the stock of Tyson & Totten and \$2,000 on that of the Sinclair Rubber company.

Fire in a Minnesota Village.

St. Paul, Minn., Dec. 4.—The Press office, Campbell's bakery, and other buildings were burned at New Paynesville, Minn., early yesterday morning. Loss, \$10,000; insurance, \$400.

Residence Burned at Quincy, Ill.

Quincy, Ill., Dec. 4.—The residence of Mrs. J. C. Barlow on Sixth avenue was destroyed by fire yesterday. The loss is \$15,000, on which there is \$14,000 insurance.

Durrant May Be Sentenced Friday.

San Francisco, Cal., Dec. 4.—Theodore Durrant's affidavits and motion for a new trial proceeded to a close yesterday. General Dickinson, counsel for the prisoner, made a careful argument. District Attorney Barnes, for the prosecution, submitted a brief, citing authorities. The court announced that it would pass upon the motion for a new trial Friday. It is considered certain that the motion will be denied and that sentence will then be pronounced upon Durrant.

Acquitted of Bribery.

Springfield, Dec. 4.—Milroy H. Gibson, the Chicago member of the thirty-ninth general assembly who was indicted for soliciting and accepting a bribe to influence his official action, was yesterday acquitted, the jury finding a verdict of "not guilty" under instruction by the court.

Will Change Day of Execution.

Minneapolis, Minn., Dec. 4.—Gov. Clough has announced that he will break the custom of selecting Friday as hangman's day, and Hayward will hang on a Wednesday or a Thursday.

THE SULTAN PLANS
HIS RETALIATIONTURKEY MAY SEVER DIPLO-
MATIC RELATIONS.

If the Dardanelles are Passed Without His Consent, This Action Will be Taken—Great Britain Delivers Her Ultimatum and Says Turkey Must Toe the Mark.

London, Dec. 4.—The Vienna correspondent of the Daily News says that a telegram to the Turkish embassy there says that the sultan has resolved to break all diplomatic relations if the powers force the Dardanelles.

A dispatch from Rome to the Daily News says that there is great activity in all the Italian arsenals to prepare the whole naval force of the country. The cruiser Piemonte, the newest and fastest in the Italian service, her speed being twenty-one knots an hour, has been ordered to the Levant.

The Daily News correspondent at Constantinople says: "A letter from a European at Marsovan says that on Saturday after the massacre there was a ghastly spectacle at the edge of the Armenian cemetery. Corpses were brought by the wagon load and tossed upon the ground in heaps."

"Aside from the rifling of the bodies by the perpetrators of the slaughters a hyena-like horde of barbarians pounced upon these heaps and stripped the dishonored carcasses of what poor clothing they had, leaving them in all degrees of nudity. Finally, about noon, a score of Armenians, headed by a priest, were sent under protection of soldiers to bury the corpses. Eighty-three of them were laid in a single trench. Probably about 100 of them were killed."

BRITAIN'S ULTIMATUM.

Turkey Must Grant Demands Before Saturday Next.

Constantinople, Dec. 4.—Sir Philip Currie, the British ambassador, has had an interview with Tewfik Pasha, the Turkish minister for foreign affairs, during which he notified the latter that Great Britain allowed Turkey till Saturday next in which to grant the permission for an additional guard ship to pass the Dardanelles. In the event of a refusal Sir Philip informed Tewfik Pasha that a British gunboat would be sent through the Dardanelles without the permission asked for. It is further stated that Italy indorses the action of Great Britain in this matter.

It is known that the sultan, finding that his appeals to the powers were in vain, has been making the strongest personal appeals to the different sovereigns interested to induce them to withdraw their demands for the extra guard ships, pointing out, as usual, that it would be a serious blow to his dignity and might cause not only the most serious rioting in Constantinople, but an extended outbreak upon the part of the Mussulmans generally.

The almost complete absence of news from the provinces renders it difficult to form an estimate of the situation as to the condition of Asiatic Turkey. The extent to which reform is being pushed and the degree to which rioting has been suppressed are the points which influence the situation and serve as a guide to the possible action of the powers.

Of course, all excuse for intervention would be done away with if, as the almost complete silence would indicate, order has been practically restored and there have been no further serious outbreaks. But in diplomatic circles here nobody seriously believes this to be the case.

It is almost certain that at this juncture not one of the powers is desirous of being compelled to seriously intervene in the affairs of the Turkish empire unless under extreme provocation. Such provocation, it is believed, the sultan will take care not to offer if he can help it.

Arizona Indians Are Citizens.

Phoenix, A. T., Dec. 4.—By a ruling of Judge Baker, in the United States court, Pima Indians were recognized as citizens of the United States. The tribesmen, nearly a hundred years ago, were declared subjects of the King of Spain by royal edict, and the rights of citizens were guaranteed them by treaties wherein Arizona was ceded to the United States. The matter will finally be passed upon by the supreme court in January. The decision affects many thousands of Arizona Indians.

Bicycling Record Broken.

Cheyenne, Wyo., Dec. 4.—Two world's records were broken yesterday by Cheyenne bicyclists. John Green rode a mile unpaced, with a flying start, straightaway course on road in 1:25 flat, breaking McLeod's world's record of 1:33 2-5. Charles Eravell rode a mile unpaced, standing start, on road, in 1:45 flat, beating the best time recorded, 2:04 2-5.

St. Paul Makes a Fast Run.

London, Dec. 4.—The American liner St. Paul has been reported as passing the Lizard at 1:15 o'clock this (Wednesday) morning. Allowing her seven and a half hours to reach the Needles, her time of passage will be 6 days 11 hours and 45 minutes, a reduction of her record of 7 hours and 50 minutes, and within 3 hours and 50 minutes of the record held by the Puert Bismarck.

NEW WITNESS EXAMINED.

Louis Asher Tells What He Knows of the Hinshaw Case.

Danville, Ind., Dec. 4.—The grand jury had Mr. Asher, the new witness in the Hinshaw case, before it all day yesterday. It is learned through him that he was at the scene of the tragedy and that he was hit in the front of his right leg by some of the shots that was fired on the night of the murder, and says he can show the wound. He claims to have been about 100 yards east of the parsonage when he heard altogether seven shots and the cries and shrieks of a woman. He was hunting his horses at this particular time, 1 o'clock a. m., is his explanation for being there. To have been there, however, at that time, and to have traveled all the road he says he did in search for his horses would have made about thirty miles in four hours. There is no significance attached to his statements before the grand jury, as far as can be learned.

The excitement over the remarkable crime has been revived by the developments. In the minds of the people of this county the mystery is no nearer a solution than it was before the minister was arrested. C. A. Robinson, president of the Farmers' Mutual Benefit association, went to Jeffersonville yesterday to talk with Hinshaw and see if the minister's demeanor still indicates that he is innocent. He carried a letter from Gov. Matthews to the prison officials.

Church Missionary Society.

New York, Dec. 4.—The annual meeting of the American Church Missionary Society for the election of officers and the transaction of other business was held at the mission house yesterday. The first business was the reading of the annual report in which the alleged defalcation of Secretary William A. Newbold and Treasurer Henry A. Oakley were commented upon. The amount taken by the treasurer is computed by an expert accountant at \$21,323. The amount taken by the general secretary is computed by the same person at \$19,034 from Sept. 1, 1887. The amount taken by the treasurer has been refunded. The executive committee was unanimous in deciding that the society would not prosecute. The officers elected are as follows: President, General Wagner Swayne; treasurer, Andrew Seaberskie; secretary, Rev. J. Thomson Cole.

Trial of the Texas To-day.

New York, Dec. 4.—The Texas left the navy yard yesterday for her trial trip off Sandy Hook. She will be tried to-day. On board was Chief Engineer Coleman of the Richmond Locomotive works, with several of his assistants. The engines are to be managed by the representatives of the firm which built them. After the trial trip the Texas will proceed to Newport for her torpedo outfit, after which she will try her guns in Gardiner's Bay. She will then be ready to join the other ships of the North Atlantic squadron for the winter cruise in the South Atlantic.

Youthful Train Wreckers Held.

Rome, N. Y., Dec. 4.—J. Watson Hildreth, Herbert Plato, Theodore Hibbard and Fred Bristol, who are charged with wrecking the fast mail and passenger train on the New York Central railway on Nov. 19, were brought into court yesterday for a hearing of their case, pursuant to an adjournment from Nov. 20, on which date they pleaded not guilty. Counsel for the boys waived examination, and they were held for the grand jury. While they were in court the boys chatted gayly with friends and appeared to enjoy the notariety they have achieved.

Spanish Troops Dying of Fever.

Philadelphia, Pa., Dec. 4.—According to the crew of the Norwegian steamship Moringen, which arrived yesterday from Baracoa, Cuba, the fever ravages are killing off the Spanish soldiers in that locality at a lively rate. The soldiers stationed around Baracoa, not long since arrived from Spain, and, not having become acclimated, are suffering terribly and dying like sheep. The Moringen is the first vessel which has come direct from Baracoa for some time.

Secretary Smith Talks on Finance.

Atlanta, Ga., Dec. 4.—Secretary of the Interior Smith appeared before the general assembly yesterday to discuss the financial question. The secretary had been invited to discuss the "Success of the Day," but, like ex-Speaker Crisp, who spoke before the same body two weeks ago, he confined himself to the money question, taking strong ground against the free and unlimited coinage of silver and defending the course of the administration in financial matters.

Iowa Episcopalians.

Davenport, Iowa, Dec. 4.—The forty-third annual convention of the Protestant Episcopal church of Iowa met yesterday at Grace cathedral, presided over by Bishop Perry and attended by fifty of the prominent Episcopal clergy of Iowa. An attempt to elect a secretary developed a deadlock that continued through two hours' balloting and necessitated adjournment till 9 p. m., after the annual missionary meeting.

No More Live Sheep for England.

London, Dec. 4.—The Chronicle believes that the agricultural board has notified Canada that, consequent upon the discovery of scab disease upon sheep landed here from Canadian ports, all sheep must, in future, be slaughtered at the port of debarkation.

GROWTH IS SHOWN
BY THE CATALOGUETHE BELOIT COLLEGE PUBLI-
CATION IS OUT.

Three Changes in the Faculty—The Number of Students Enrolled is 444—A Gain of 56 Over Last Year While the Academy Roll Reaches the Limit.

Beloit, Wis., Dec. 4.—The college catalogue for 1895-6 just out, is improved and commented upon favorably. P. F. Pettibone, '93, is in the list of trustees; the faculty remains the same as last year, except that Mr. Frazier has gone out and Mr. Eddy come in, and Mr. Methven now has charge of the art department in place of Mr. Browne. There are twenty-seven in the senior class, twenty-two in the junior, thirty-seven in the sophomore and seventy-three in the freshmen and graduates, making a total of 160 students or more than 40 per cent beyond the previous total. The attendance in the academy is 305, the maximum allowed. The net total in the college is 444 against 388 last year; including the pupils in art and music the net total reaches 493. There are thirty-four women in the college classes. The number of accredited schools is much increased, and a remarkably strong alumni roll appears in the publication. Loose inserts of cuts of many of the college buildings and scenes of Beloit and vicinity are a new feature.

A "ROAST" FOR DOE BY MENASHA MEN

FOX RIVER POWER OWNERS
CONDEMN THE GENERAL.

Says That He is Not Conversant With the Situation and His Remedies Are Not Practical—Department Favors the Big Mills—They "Want No Martial Law."

General Joseph B. Doe's solution of the water power troubles in the Fox River valley does not seem to be entirely satisfactory. A prominent mill man was interviewed at Menasha and says that a recent interview with the assistant secretary of war "shows that Mr. Doe has only a superficial knowledge of the situation here. All the way through he takes the position that the rights of navigation are the only rights to be considered. The rights of the private individuals, no matter what was paid for them, are not considered worthy of a thought. "Mr. Doe does not appear to be sufficiently conversant with the situation here to know that if all the wheels on this level were closed all the past summer the needs of navigation would not have been supplied. The keeping of the water at high or low water according to his suggestion would simply mean that the sluice gates would be open as soon as high water mark was reached, and that when low water mark was reached every wheel on the river from here to De Pere would be stopped. This is not the aim of the memo prepared for congress.

Had No Trouble Before. "That contemplates the use of water in such amounts that low water mark will not be reached during the season of navigation, and in such quantities as will give the best results to navigation as well as to manufacturing. Previous to the administration, the war department and all other departments have considered the manufacturing interests as well as those of navigation. I do not think it would be best to give the war department full control in this matter, as is suggested in the interview. We do not care to be under dictatorial control such as that department has assumed during the past season. That department does not seem to consider the justice of individual rights, but it assumes dictatorial control over every matter that comes under their jurisdiction.

Department a Persecutor. "We do not care to do business under martial law. In cases known of lately, it seems to take the part of a persecutor. It has caused the arrest of small and insignificant water users, and those who were simply in the employ of water users and put them to much trouble and expense, through the complaint of ignorant lock tenders, the cheapest class of cheap help employed by the government. The government made arrests without giving any caution or notice, and at the same time some of the big concerns on the same level, were not molested. The attitude of the war department during the past season does not make us wish to be under its protecting wing."

NOVEL CRIBBAGE BOARD MADE

Charles La Pointe's Invention a Decidedly Pretty One.

Charles La Pointe demonstrated that he is quite a genius, by getting up a new kind of cribbage board. The board is four inches deep by sixteen long, and is inlaid with 468 separate pieces of wood, of which there are nine different varieties. Two bells are on the inside, so that when each point is registered it is "rung up". The top is made of brass, which is inlaid with pennies, giving it a handsome appearance.

STEAMSHIP RATES TO GO UP

Janesville People Will Pay More. This Season Than They Did Last.

Janesville people who have been planning on a trip to Europe next summer will doubtless be disappointed in the size of the ocean rate, for local agents have been notified not to book any passengers at the old rate until further informed. Agent Charles E. Jenkins of this city, who represents a number of the leading lines, says he has had twenty applications from Janesville people who contemplate making such a trip next summer, but who, no doubt, will be surprised at the rate as compared to that of last season. It is said that when an agreement goes into effect, which the continental steamship lines have just ratified, an increase in steerage rates will be announced.

The steamship companies are said to be interested in the formation of a pool, which eventually means a higher rate for both the first and second class.

"The amount of the whole matter is," remarked a local agent, "that for some time past steerage passage could be obtained about as cheap on a first-class vessel such as the New York, Paris or St. Louis, as it could on any of the second-class boats, and the cheaper boats began to cut rates which no doubt brought about the compromise."

Where it formerly cost from \$10 to \$25 for steerage, the rates are now placed at \$30 to \$34, which brings it to within a few dollars of the second class rates. Although no definite price of tickets for first-class passage has yet been received, they are daily expected.

CHARGE FOR CARRYING VEHICLES

Railroad Company Will Collect for Bicycles, Tricycles and Baby Cabs

The life of a baggageman has been anything but a "soap" in the past, but for the future there is in store all kinds of trouble for that gentleman and all on account of the excess charge that is being demanded by both roads for the carrying of bicycles, tricycles and baby carriages. For years these articles have been carried free, but in the future, on the basis of the regular agreed excess baggage rates, each bicycle, tricycle and baby carriage, whether crated or not, will be charged for the same as fifty pounds of excess baggage, the smallest charge in each case to be twenty-five cents. This charge will be separate from any charge of excess baggage and will not be carried as a part of regular baggage allowance. The agent at the point of shipment will always collect the charges which will be regulated according to the distance, for where tickets that cost from five cents to \$4.20 the extra charge is twenty-five cents, but tickets costing from \$67.51 to \$58.35 the extra charge is \$4.10. Thus while the ticket agent has to "break the ice" to the passenger, the baggageman will get all the "cussing."

HE BOUGHT HIS COAL OF A MILTON MAN

THE PRICES VARY IN THE DIFFERENT MARKETS.

Janesville Pays \$7.50 Whereas Milton People Will Deliver the Goods Here For \$6.25 a Ton and Make \$1.75 a Ton at That—Farmer Did the Hauling.

Why coal should be \$7.50 in Janesville and \$5.75 in Milton is one of the things that has not yet been explained.

But people say they are getting at the solution.

And it is simple—"buy your coal at that town."

This way out of the difficulty is now being put into effect, and a two horse load of chestnut coal arrived in Janesville from that village yesterday. It was being unloaded at an east side establishment as a Gazette reporter was passing and a good sized crowd had gathered about the farmer who said that he had driven with that ton of coal all the way from Milton.

You see times are going to be mighty hard up our way the coming winter and we are only too glad to get the job of hauling a coal to this city," was the way he put it. "The coal," he continued, "cost me \$5.50 on the cars in Milton, or \$5.75 in the yards, and I deliver it here to this man at \$6.25 a ton."

One local firm is advertising "No. 2 nut coal" for \$6 a ton, but the price for "nut" in Janesville, is \$7.50 a ton. The "whyforness of the wherefore" was not just clear to the man who bought the Milton black diamonds, so he contracted with the man in that village.

LAW SUITS HELP THE HOTELS

Twenty-Two People Were Called Here by the Waukesha Case.

Local hotels have been benefitted by the entertainment of persons who were called into the city by the cases in the circuit court.

"If they only come this way we are all right," was the way a local hotel clerk expressed himself, "for in the case that was taken up yesterday, there were twenty-two persons from outside of town who were in one way or other interested, and if a few more cases like that of yesterday are only brought up to the city, we will not want the national republican convention held in the Bower City."

COLD DAYS FOLLOW THE DROUTH

January Will Be Crisp and Snappy, the Prophets Declare.

The time of the year is at hand when the weather prognosticator will launch his predictions on the severity of the coming winter. The corn shuck is heavy, the muskrat borrows deep, and the average prophet says the winter will be a cold one. The weather bureau records show that a cold January follows a dry October. The records show for the last quarter of a century that when the total rainfall in October does not exceed two inches a cold January has followed.

Clergymen's Half Fare Permits.

For the information of clergymen and other religious officers entitled to travel on half fare permits, a synopsis of ruling for 1896 is herewith given: The application classifies (a) (b) (c) (d), showing those persons entitled to annual and those to only trip permits. The applicant fills in opposite his class; obtains the indorsement of local agent and then forwards application with fifty cents in check, draft, postal or delivers order to B. D. Caldwell, chairman Western Passenger Association, Chicago, Ill.

The annual permit covers 37 miles of railway in western states and is a valuable bit of cardboard. The trip permit covers only between certain points and is limited to 30 days. The signature of one agent at a point where there are several railways will suffice for all. Blanks can be obtained at the depot and may be fully endorsed and sent in at once for permits for 1896.

WANTS KANSAS CUT IN TWO

J. H. Smart the Former Janesville Man, Favors the Idea of Division.

J. H. Smart the noted railroad contractor and ranchman left for Council Grove, Kansas, his home, on the morning train. Mr. Smart met many of his old time friends here and at Milton. Like A. A. Robson, George R. Peck and other Wisconsin men he has been very successful in the last few years out west. He says too many go by hearsay as to the west instead of investigating for themselves.

He thinks Kansas ought to be divided into two states the same as Dakota. Too many people condemn the whole of Kansas when only the western part is unfruitful.

Read the Death Roll

Which the bills of mortality of any large city may be fully perused, and you will find that renal and vesical maladies, that is to say, those that affect the kidneys and bladder, have a remarkable prominence—we had almost said—prevalence. Bright's disease and diabetes in the chronic stage are rarely cured, and gravel, catarrh, of the bladder and empyema, slay many. Yet at the outset, when the humors are in the system, the danger may be nullified by that thorough renal tonic and diuretic, Hostetter's Stomach Bitters, which imparts the requisite amount of tonic to the system without over-excitement, and the use of which is convenient and involves no elaborate preparation. Dyspepsia, a usual concomitant of renal complaints, and debility, which they invariably produce, are remedied by it. So also are constipation, malarial, rheumatic and nervous ailments.

Bradbury Planes—Special Christmas Offer

We intend that 1895 shall be a red letter year in our fifty years of business. We want you to help us out and to increase our sales. Send us your name and the names of your friends who would buy the best and sweetest toned piano made if they could try it on extra favorable terms. Your Christmas will be happier if you sit down at a Bradbury in the winter. Our Christmas will be happier if our immense factory stores and warehouses in Chicago, New York and other cities are emptied to meet your demands.

We want you to have the same sort of Bradbury piano that Mrs. Cleveland plays on in the White House, and that Mrs. Hayes and Mrs. Harrison play on in the White House. Don't be afraid that the price is too high for you.

There is good news for you in our special 1895 Christmas offer. We do not cut the price of our forty years or twenty years or ten years ago. But the Bradbury is better than ever in tone, in quality and in every way. Our guarantee is over one million dollars capital behind every piano we make and sell.

Write today, for Christmas is coming fast.

AFTER EATING HASHEESH.

The Peculiar Mental Condition Which Came to One and All.

During quite a good half hour I felt nothing in anyway abnormal, but when the meal was drawing to its close a subtle warmth, which came, as it were, in gusts to my head and chest, seemed to permeate my body with a singular emotion, says the Cornhill Magazine. Later on the conversation around me reached my understanding, charged with droll significance. The noise of a fork tapped against a glass struck my ears as a most harmonious vibration. The faces of my companions were transformed. The particular animal type, which, according to Lavalier, is the basis of every human countenance, appeared to me strikingly clear. My right hand neighbor became an eagle, he on my left grew into an owl, with full projecting eyes; immediately in front of me the man was a lion, while the doctor himself was metamorphosed into a fox. But the most extraordinary circumstance was that I read, or seemed to read, their thoughts and penetrate the depth of their intelligence as easily as one decipher a page printed in large type. Like an experienced phrenologist I could indicate accurately the nature of their sentiments; in this analysis I discovered affinities and contrasts which would have escaped one in a normal state. Objects around me seemed little by little to clothe themselves in fantastic garb, the arabesques on the walls revealed themselves to me in rich rhymes of attractive poetry, sometimes melancholy but more generally rising to an exaggerated lyricism or to transcendent buffoonery. The porcelain vases, the bottles, the glasses sparkling on the table—all took the most ludicrous forms. At the same time I felt creeping all around the region of my heart a tickling pressure, to squeeze out, as it were, with gentle force, a laugh which burst forth with noisy violence. My neighbors, too, seemed subjected to an identical influence, for I saw their faces unfold like peonies—victims of boisterous hilarity, holding their sides and rolling about from right to left, their countenances swollen like Titans. My voice seemed to have gained considerable strength, for when I spoke it was as if it were a discharge of cannon, and long after I had uttered a sentence I heard in my brain the reverberation, as it were, of distant thunder.

"HUMAN HEARTS" A STRONG PIECE

Fine Production Pleased a Janesville Audience Immensely Last Evening

When Manager Stoddard announced that "Human Hearts" was a play worth seeing, he told the truth. The play is one with a lesson attached, as each person in the big audience who saw the play at the Myers Grand last night, can testify. The play deals with the simple people of Arkansas, who come under the machinations of a confidence man from the city, and his female accomplice. The story is brim full of both pathos and humor, and the audience cried and laughed alternately. The company was entirely adequate.

With the Regularity of Shuttle.

and nearly as swift the trains of the Lake Shore & Michigan Southern R'y. make their trips between Chicago and New York, weaving closer and closer day by day the many mutual interests of these great commercial centers of the United States. Departing from the Van Buren street station, located in the heart of the business district of Chicago and arriving in New York at the Grand Central station, 42nd street the popularity of this line in point of time and convenience is readily understood. It seems almost superfluous to add that for this service the equipment embodies all that is new and modern in the art of car building, apparently nothing that would give one a feeling of safety, comfort and luxury, has been overlooked. The schedule provides morning, afternoon and evening trains. Latest time table with any information desired will be promptly furnished on application. J. E. Hurley, T. P. Action of Nellie M. Cyr Against John W. Grubb Will Come Up Next—Captain W. T. Vankirk Appointed Receiver of the Old Risk Property—Other Proceedings.

The circuit court is busy today with the case of the First National Bank of Janesville against C. W. and E. H. Dudley, the case growing out of a loan negotiated by the defendants from the plaintiff. Olin & Butler of Madison and E. D. McGowan of this city, appear for the defendants, and E. H. Dudley, Jeffris & Field for the bank. Mr. Olin examined Dr. E. H. Dudley this morning and he and Attorney Jeffris had rather a lively time interposing objections to questions asked. The case will probably take all day.

The case of Nellie M. Cyr against John W. Grubb is set for trial following the Dudley case. J. L. Mahoney and Mahoney & Cunningham appear for the plaintiff and Wians & Hyz for the defendant.

Judge Bennett this morning issued an order appointing Capt. W. T. Vankirk receiver of the old "risk property" lately occupied by the Empire Cross Springs Company.

As was briefly stated in The Gazette of last evening, the case of the state versus Haynes Brothers of Waukegan, who were charged with criminal conspiracy, a case that came here on a change of venue; was dismissed by Judge Bennett late yesterday afternoon, on the ground that the information filed by the district attorney did not show an offense.

O. D. Sabin yesterday won his case against Joseph Loeb and C. H. Keuck, judgment being given him in the sum of \$128.70 and the costs of the action. The suit was over a promissory note. Sutherland & Nolan appeared for the plaintiff and Dunwiddie & Wheeler for the defense.

The home is still closely quarantined and has been thoroughly fumigated so that in all probability there will be no re-occurrence of the disease.

ALL LOCAL BOILERS ARE IN GOOD SHAPE

SO SAYS INSURANCE INSPECTOR WALLIS.

He Has Just Finished the Semi-Annual Inspection and Compliments Janesville Engineers Highly on Their Efficiency—Company Has Not Lost a Dollar in Janesville.

If you hear a great explosion one of these days you needn't worry for fear some boiler has "let go." Janesville boilers are not of that kind. So says W. E. Wallis of Chicago, the inspector for the Hartford Steam Boiler Inspection and Insurance Company of Hartford, Conn., who has just finished his work in this city.

"There are twenty-four boilers in this city that are insured in our company," said Mr. Wallis. "They are all in factories, laundries and churches and there are but four in town upon which we have no risks. We inspect them all twice a year. Janesville boilers are above the average which speaks very highly for the Bower City engineers. They must all be first class workmen, for our company has never lost a cent in this city. At La Crosse I inspected 80 boilers; at Wisconsin 75 and at Madison 39."

Where Is Hell?

According to the learned Dr. Whiston, the friend and adviser of Sir Isaac Newton, hell is situated on a comet. In answer to the request for some tangible proof on the subject the following unique theories were given: "It seems to me," said the doctor, "that this thing, which you rightly say 'must belong to me, and me alone,' does locate hell, the awful prison house of the damned, in the fiery nucleus of some (perhaps yet undiscovered) comet of unthinkable size. In its wide arching chariot of fire they will be whirled in the twinkling of an eye from the intolerable heat of the sun back into space hundreds and hundreds of millions of miles from the great torch-bearer of our system. Thus instantly the wretched tenants will be given two unbearable extremes, one of cold, the other of heat. This is to continue through the endless ages of eternity." Where is the minister who could preach that doctrine to-day and hold his pulpit?

Jewish Christians at Smyrna.

A remarkable Jewish movement is reported from Smyrna. A Russian Jew named Abraham was converted in the hospital at Smyrna, and began preaching to the Russian Jews, who formed themselves into a Jewish Christian society. Already about 200 have joined the movement, and it has become sufficiently important to attract to itself vigorous persecution.

BACKACHE

AND BEARING-DOWN PAINS

Nearly Drove Mrs. Martin Hale Wild.
 How She Obtained Relief.

[SPECIAL TO OUR LADY READERS.]

"Nearly all last winter I was sick in bed, and was attended by different physicians; none cured me, none helped me very much. When I attempted to get up, it was always the same story; my back would ache, I was dizzy and faint, the bearing-down pains were terrible. I also had kidney trouble badly."

"I knew I must have help right away. I resolved to try Lydia E. Pinkham's Vegetable Compound. The results were marvellous. I have gained in every way, and am entirely cured."—Mrs. MARTIN HALE, Oakdale, Mass. Every druggist has it.

Reliable Shoe Men.

Store open every evening except Tuesday and Friday.

DID YOU EVER STOP TO THINK OF IT? OF course, you don't sleep in them, but the greater part of your time is put in with Shoes as companions. Taking this into consideration, it's well to go to the place where you get

A Perfect Fit,
 In Perfect shoes.

We have the reputation of knowing how to fit shoes to the feet, this does not mean we simply put the shoes on the feet, but see to it that the Shoe and foot look well when put together. This reputation is not in our own mind wholly; people have come to us many times with this compliment for our Shoe knowledge. It's easier to fit shoes that are made and put up carefully, of course, than others. These are the kind we carry: Our

Box Calf,
 Oxide Calf,
 Enamel,
 Cordovan,

And as many others, we do not mention here for men are easy and pretty fitters. Our heavy

Calf Dongola,
 special for ladies and our

We advertise what we
 have—We have what
 we advertise.

What we have and what we propose to advertise to a very large extent from now until Christmas is over is THE ANNEX on River street with its immense assortment of

HOLIDAY GIFTS

We would impress upon you first of all the necessity of making most of your purchases before the rush of holiday trade sets in. Christmas is Christmas the world over. You hear people say "they can't afford to make presents this year" yet when the time comes they can't resist the purchase of 'just a little something' to make some one happy. THE ANNEX is the popular buying place for hundreds of articles; and it is bound to be crowded to its utmost capacity the latter part of this month. Right now we have beautiful things in

Fancy china pieces,
 Pretty sets of dishes,
 Silver plated ware,
 Fancy articles,
 Popular books,

Delicate dishes,
 Solid silver novelties,
 Ornaments,
 Illustrated books,
 Toys,

and hundreds of things that are most wanted at this season of the year. Don't miss THE ANNEX. The low prices are made still humbler this month.

LOWELL'S ANNEX.

True Realism.

Dramatic Author—I understand that you are looking for a new play.
Manager—Yes, but I am very hard to suit. I want a play which shall combine all the elements of tragedy, comedy, farce, pantomime and spectacle.
"That's it. That's what I've got. Chock full of tragedy and human suffering, tears and smiles, joy and woe, startling surprises, unheard-of mishaps, wreck and ruin, lamentations and laughter."

"What's the title?"
"A May Day Moving."
"What's the plot?"
"Hasn't any plot. Just an ordinary May day moving."—N. Y. Weekly.

Temperance Mansion.

"I see you are building a new house, Mr. Bung."
"Yes, you are right."
"Made the money out of whisky, I suppose?"
"No."

"Why, you are a liquor dealer, are you not?"
"Oh, yes! But the money I'm putting into this house was made out of the water I put into the whisky. Every farthing was made out of the water, sir."—London Tit-Bits.

An Insinuation.

An excited individual rushed into a Texas schoolhouse and asked for the teacher.

"What is the cause of your excitement, my dear sir?" queried the teacher.

"I was just passing the schoolhouse, when I was set upon and insulted by a gang of young blackguards, and I have come to see you about it, as I understand you are the principal."—Texas Siftings.

Not Qualified.

Friend—I suppose those congressional funerals are pretty lively affairs?
Ex-Congressman—I suppose so; but I never happened to be selected to attend one, myself.

Friend—That's singular! You were 12 years in congress, were you not?

Ex-Congressman—Yes, but I don't drink.—Puck.

He Was Thinking of Them.

J. Caesar Morandant (decisively)—I leave the profession to-morrow, to accept a position in a hardware store.

J. Brutus Maguire—What! leave the stage! Never! My dear fellow, think of the many ties—

J. Caesar Morandant (grimly)—I am thinking of them. I have just walked here from Syracuse.—Judge.

Ambiguous.

"How are you feeling?" asked the physician.

The patient turned up his eyes and remarked in a hollow voice: "I am feeling rather worse, thank you, doctor," and the doctor was not just sure where the thanks were intended to come in.—Indianapolis Journal.

He Made a Hit.

"Yes," said Willie Wubbles. "I went to the reception with a boil on my neck."

"And what did your friends think of you?"

"All jealous, deah boy. It was the swelllest thing there."—Washington Star.

At the Piano.

A symphony in black and white
The keyboard lies before her;
Of symphony nor melody
Is she a sweet outpourer.
The Scriptural injunction she
Is earnestly pursuing—
She never lets her right hand know
What her left hand is doing.
—Judge.

Some timely advice.

With but a few short weeks between us and Christmas, it behooves the always tardy buyer to bestir herself and see if she can not for one year at least, be in time with gift purchasing, so that she does not have to, on Christmas eve, sadly pay for the be-saggled remnants of what once were a goodly showing of charming novelties. Our store, even now, is overflowing with dainty, pretty things for presents, and many ladies, tremendously foresighted, have already begun their preparations for the holidays. Why don't you join in with the rest? A much better time to trade now than when we are rushed.

A few things that

might do for Christmas :

A handsome silk or satin Suspender	\$1.00 to \$2.50
A handsome Necktie, either in a puff, four-hand or teck, nicely boxed	75c to 1.50
Handsome Christmas Handkerchief Boxes	50c
Handsome Neckscarfs, silk, satin and plushes	1.00 to 3.00
